Commissioner for Patents

A substitute specification EXCLUDING the claims is required pursuant to 37 CFR 1.125(a) because the copy of the translated specification from the 371 filed 12/19/06 is difficult to read especially pages 1 and 2 and because page 3 is not shown and could lead to confusion and mistake during the issue and printing processes. Accordingly, in order to prevent such mistakes a complete subspec is required before passing the case to printing. See 37 CFR 1.125 and MPEP § 608.01(q).

A substitute specification must not contain new matter. The substitute specification must be submitted with markings showing all the changes relative to the immediate prior version of the specification of record. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. An accompanying clean version (without markings) and a statement that the substitute specification contains no new matter must also be supplied. Numbering the paragraphs of the specification of record is not considered a change that must be shown.

APPLICANT IS GIVEN 1 MONTH OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS NOTICE TO SUPPLY THE CORRECTION.

FAILURE TO TIMELY REPLY TO THIS NOTICE WILL RESULT IN ABANDONMENT OF THE APPLICATION.
